

# BERTL'S BEST 2007

## 12th Annual Awards

*Best Departmental Ledger Color Printer*

Lanier  
LP440c Series

- *The powerful controller cuts through complex workflows with a high degree of efficiency*
- *A wide range of finishing capabilities delivers a broad mix of document production capabilities within a small footprint*
- *Heavy card stock support through duplex unit lets users produce professional presentation materials*
- *Heavy media is supported through all main trays not just the bypass*
- *Tight stacking of collated sets make offline finishing tasks, such as perfect binding or professional punch, less time-consuming*
- *Imaging drums are well protected and not exposed during paper jam removal*
- *The DESS Module enables data encryption ensuring that only the originally selected printer can interpret the printer language data stream*
- *The job delivery and failure pop-up notification feature minimizes wasted trips to the device for out of line of sight users*
- *Advanced print clustering capabilities via SmartDeviceMonitor include automatic or semi-automatic job rerouting and load balancing, keeping bottlenecks to a minimum*
- *Job Binding features in the RPCS driver and DesktopBinder utility allows users to combine documents from single or multiple applications into a single file for batch printing*
